

Lice prevention Daily Leave-In Spray

Defends & Repels Superlice
Long Lasting Protection¹
Safe for Everyday Use²

Helps condition and detangle hair
Can be applied to wet or dry hair

Use Nix[®] Lice Prevention Daily Leave-In Spray:

- During lice outbreaks (peak lice season is typically back-to-school)
- To protect the whole family when a family member has head lice
- Year round to repel lice & help prevent infestations
- After checking to ensure no lice are present. If lice are present use Nix Ultra[®] Shampoo as directed.

Repels Lice & Superlice

Lice can spread very easily from person to person through head-to-head contact or through shared clothing or personal items (such as a hat, towel, or hairbrush).

Nix[®] Lice Prevention Daily Leave-In Spray is specially designed to repel lice, including Superlice, through a blend of essential oils such as Rosemary, Citronella, and Lemongrass.

Use daily. Intended for use as a deterrent and does not kill lice or eggs or treat an infestation. If lice are present, use Nix Ultra[®] Shampoo lice treatment to kill lice and eggs.

DIRECTIONS FOR USE

READ ENTIRE LABEL BEFORE USE.

USAGE: Use up to two times daily to repel head lice. For children under 2, consult your physician. SHAKE WELL. Spray liberally onto washed towel-dried hair; evenly covering the entire head. The number of sprays per application will vary with hair length and thickness. Avoid direct application to surrounding skin and scalp. Leave on hair and let dry gently. Also suitable for use on dry hair. Light scent disappears quickly when dry.

PRECAUTIONARY STATEMENTS: Keep out of reach of children. For external use only. Do not allow children to apply this product to themselves. Do not use if scalp is already very irritated or injured.

CAUTION: May cause eye irritation. Avoid contact with eyes. May cause skin irritation.

FIRST AID: IF IN EYES: Rinse thoroughly with water.

IF ON SKIN: If skin irritation occurs, discontinue use and wash treated skin with soap and water. If discomfort persists, call your doctor.

STORAGE AND DISPOSAL:

Storage: Store in a cool dry place. Protect from freezing. Disposal: Do not reuse or refill this container. Place in trash or recycle if available. This product has not been registered by the U.S. EPA. Insight Pharmaceuticals Corporation represents that this product qualifies for exemption from registration under FIFRA 25 (b).

TOTAL 100.00%

Net Contents 6.0 fl oz (177.44 mL)

THE FACTS OF LICE

Anyone can get head lice – It has nothing to do with cleanliness or poor hygiene. Head lice are treatable and very rarely cause serious health problems.

What are head lice?

- Head lice are small insects that live and feed on blood from the human scalp.
- Head lice may get as big as sesame seeds.

What are nits?

- Nits are lice eggs laid on the hair near the scalp.
- Nits are oval shaped, tiny and yellow, brown, or tan, but appear white after hatching.
- Nits attach to hair with a waterproof glue-like substance that cannot be washed out or blown away.

What are Superlice?

- Harder-to-eliminate superlice are lice that have developed resistance to traditional pesticide lice treatments. The number of superlice continues to increase in the United States.

Nix Ultra[®] Shampoo and Nix[®] Lice Removal Comb are specially designed to kill both superlice and regular lice, including eggs.

How to check for Lice and Nits?

- Check each household member in bright light.
- Watch for movement. Head lice may be hard to locate because lice avoid light.
- Look for tiny nits near scalp, beginning at back of neck and behind ears.
- Examine small sections of hair at a time.
- It is important to check all family members.
- **If lice or nits are found, use Nix Ultra[®] Shampoo and Nix[®] Lice Removal Comb.**

How do head lice spread?

- Head lice spread easily from close head-to-head (e.g., “selfies”) or hand-to-head contact with persons who have lice.
- Lice may also spread by sharing hats, helmets, scarves, headphones, brushes, combs, bedding and clothing.

How can the spread of lice be prevented?

- Do not share or borrow personal items like combs, brushes or headbands.
- Do not share or borrow hats, sweaters, coats, scarves, helmets, headphones, pillows or stuffed animals.
- Store hats in coat sleeves or pockets. Hang coats separately, away from other people’s hats and coats.
- Wash under fingernails if lice or nits are seen.
- Inspect children for lice daily when a lice outbreak occurs at school or day care.
