

Nix[®] Ultra

Step-by-Step Lice Guide

GOT LICE? DON'T SWEAT IT.

We'll walk you through the steps on how to kill pesticide-resistant super lice, lice & eggs (also known as nits) and how to prevent an outbreak from happening again.

Lice happens...

Sleepovers, camps, school - you name it! Lice can easily spread, commonly from head-to-head contact and sharing personal items, so make sure you're prepared with Nix[®] to get your child's hair lice free.

How to check for lice

1) Use a bright light to examine each family members head for lice (they may be hard to spot because lice avoid light!). **2)** Look for tiny nits (which look like sesame seeds) near scalp beginning at back of neck and behind ears. **3)** Watch for movement. **4)** Examine small sections of hair at a time. **5)** It is important to check all family members.

Treat & Prevent Lice with Nix[®]

Make sure to read the directions on the packaging before you begin.

Apply the Nix[®] Ultra All-in-One Shampoo to dry hair, making sure the hair is saturated especially close to the scalp. Avoid contact with the eyes.

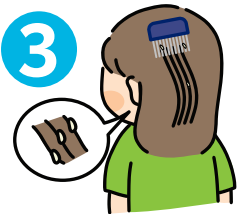

USAGE GUIDELINES

SHORT HAIR	1/3 bottle
MED HAIR	1/2 bottle
LONG HAIR	Full bottle

Let it sit on the hair for 10 minutes, then rinse with lukewarm water thoroughly until the hair is rinsed clean.

If using the Nix[®] Ultra Lice Treatment Solution, you'll need to shampoo the hair afterwards, with a shampoo that doesn't contain conditioner.

Carefully remove remaining lice from hair using the included comb; be sure to wipe lice and nits off the comb and onto a tissue and discard in a sealed plastic bag.

Next, you'll want to make sure there aren't any lice lingering in your home. Wash all bedding, hats, clothing and stuffed animals. Use the Nix[®] Lice Killing Spray on items that cannot be washed in hot water, such as furniture, carpets and car seats.

After the lice are gone, here's a few tips to keep lice away:
Use the Nix[®] Lice Prevention Spray, keep your child's hair up and tight, and make sure to avoid sharing hats, combs & towels.
